Attn: Chatham Township Variance Board

58 Meyersville Road

Township of Chatham, NJ 07928

Dear Board Members,

We are proposing the construction of a retaining wall behind our home at 75 Ormont Road in Chatham Township. We are seeking a variance to permit for the disturbance of steep slopes. The goal of the wall is to stabilize the property, enhance drainage and route water away from our home while creating living space behind the home. In the 23+ months since closing on our property the yard has eroded materially, and our back pad is consistently swamped.

Thank you for your consideration.

Regards,

Krista and Patrick Hamer
